Re: Solid Waste
Cuyahoga County
Glenwillow Landfill (SW-18-7)

Mr. Frank Grezlic
P. O. Box 39281
Solon, Ohio 44139

James A. Rhodes
Governor

Ned E. Williams, P.E.
Director

Dear Mr. Grezlic:

This is to confirm our telephone conversation of November 5, 1976. Based on our field inspection of November 4, 1976, the Zircoa gel does not have the amount of free moisture previously anticipated by this writer. Therefore it is acceptable to continue disposing of zircoa silicon dioxide gel by spreading well away from the working face of the landfill, allowing it to dry, then spreading soil on top of the gel. This process should not be inductive to leachate production. This Office will be in contact with Zircoa and yourself in the future regarding the disposal of the centrifuged gel.

If you have any questions regarding this matter, please call this writer at 425-9171.

Sincerely yours,

Lynn A. Clark
District Engineer
